RE: Final Construction Quality Control Plan  
Hamden Non-Public Properties  
Newhall Street Neighborhood Site (SRD-128)

Dear Mr. Share:

The Remediation Division of the Bureau of Water Protection and Land Reuse (the Department) has reviewed the plan from Olin Corporation dated August 2009, titled "Final Construction Quality Control Plan, Newhall Street Neighborhood Site", and the accompanying letter report dated August 19, 2009, titled "Response to CTDEP Comments Dated July 20, 2009 and CT DPH Comments Dated July 30, 2009, Olin Corporation's Draft Plans for Non-Public Properties, Newhall Street Neighborhood, Hamden, Connecticut". The plan was prepared by Severson Environmental Services and the letter report was prepared by MACTEC on behalf of Olin Corporation and in conjunction with Consent Order SRD-128, and the Department's October 6, 2008 Conditional Approval of the Generic Remedial Action Plan.

The plan outlines quality control measures to ensure the remedy of the non-public properties within the Newhall Street Neighborhood site is constructed in compliance with project plans and specifications. More specifically, the plan identifies methods for performing, documenting and enforcing quality control during remedy construction.

The letter report provides responses to comments and questions presented by the Department, and the Department of Public Health, on Olin's ten draft plans for implementing the approved remedial action plan.

**The above referenced Final Construction Quality Control Plan and accompanying letter report are hereby approved.**

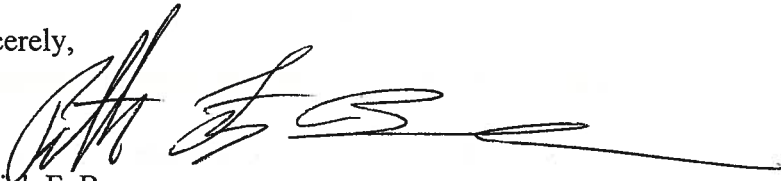

Nothing in this approval shall affect the Commissioner's authority to institute any proceeding, or take any action to prevent or abate pollution, to recover costs and natural resource damages, and to impose penalties for violations of law. If at any time the Commissioner determines that the approved actions have not fully characterized the extent and degree of pollution or have not successfully abated or prevented pollution, the Commissioner may institute any proceeding, or take any action to require further investigation or further action to prevent or abate pollution. This approval relates only to pollution or contamination identified in the above referenced plan.

Approval  
Final Construction Quality Control Plan  
Hamden Non-Public Properties, Newhall Street Neighborhood Site (SRD-128)

In addition, nothing in this conditional approval shall relieve any person of his or her obligations under applicable federal, state and local law.

If you have any questions pertaining to this approval, please contact Raymond Frigon, Jr. of my staff at (860) 424-3797.

Sincerely,

Patrick F. Bowe  
Director  
Remediation Division  
Bureau of Water Protection and Land Reuse
